

Belle Cristal's Story

Brenda Lee Buesing, born and raised in Illinois, has an extensive background in marketing and sales, and worked for several Fortune 500 companies. She was awarded for top sales in the country, and later brought that devotion into her love for design. Inspired by interior and fashion design, and now living the last 20 years in Scottsdale, Arizona, she brought her passion into fruition and is now able to share her creativity and talent with women around the world. The inspiration for her first collection, "Harmonious Heart," attributes to the celebration of life with unity of love for the creation all around us.

An honor student, Brenda Lee graduated in 2009 on the Dean's List in Interior Design, which side by side launched her career in interior and fashion. After embellishing boots with Swarovski crystals for a photo shoot, everyone was intrigued and inspired by her work, and that is how Belle Cristal was born. It took 4 years of tedious research and development to find the best craftsmen in the world to create the highest quality product with diverse design that sets Belle Cristal apart from its competitors.

Belle Cristal finally debuted its first collection in 2016, and is consistently adding new design to her collections. Currently in the works are the ankle boot and knee-high collection. Belle Cristal embellished boots have been authorized to use the world's best crystal label, "Swarovski," for the Belle Cristal brand.

All Belle Cristal collections have an intricate design pattern on each boot style, consisting of an inlay, overlay and stitching. The brilliant Swarovski crystals create depth with a vibrant sparkle that will forever shine with every step that you make. Once you put the boots on they come to life. We express our boots as magical, "When you walk into a room you will sparkle, and always be long remembered well after you leave!"
